# WHAT'S UP IN LEUCADIA?

## LEUCADIA STREETSCAPE PROJECT

The Leucadia Streetscape Project includes a number of improvements aimed at preserving and revitalizing 2.5 miles of North Coast Highway 101. Project construction comes after over 15 years of work by City staff and the Leucadia community to create a plan that makes it easier and safer for community members to get to the beach and enjoy the shops and restaurants on Coast Highway 101, whether in a car, on a bike or on foot.

The project vision is to create an environment that enhances the lives of residents and visitors in a wide variety of ways. This includes encouraging community engagement, offering space for community gathering, sidewalk dining, the display of retail goods, outdoor public seating and the showcasing of public art. The City has completed construction of the first segment of improvements called “Segment A North” (Phase 1) between Marcheta Street and Basil Street.

The City has also completed the Safety and Mobility Enhancements interim project that brought “Segments B & C” between Basil Street and La Costa Avenue into alignment with the vision of Streetscape in a quick and cost-effective way.

## MAREA VILLAGE 1900 & 1950 NORTH COAST HIGHWAY 101

Fenway Capital Advisors recently received approval for Marea Village, a mixed-use community along Coast Highway 101 in Leucadia, California.

Marea Village strives to create a thriving community environment that consists of 96 rental apartment units, which include 20 affordable units, and a 30-key expansion of the Alila Marea Resort, as well as 18,262 SF of commercial retail space, and public amenities. The project will consist of single-, two- and three-story buildings in an eclectic mix that is designed to maintain the funky character and feel of the Leucadia community and lifestyle. The site is surrounded by the Seabluffe Townhome Community to the South and West, as well as the new Alila Marea Beach Resort to the North, and Coast Highway 101 on the East. Across roughly four acres, this project will feature walking paseos, a pedestrian plaza with outdoor seating and a 257 subterranean parking garage.

## KENO PROJECT 158 N COAST HWY 101

Captain Keno’s Restaurant, an aging local landmark on North Coast Highway 101 in Encinitas, will be transformed into a “mixed use” development of condominiums and commercial spaces. RAF Pacifica Group plans to demolish the rustic, wood shake-roofed restaurant structure as well as the nearby, now-closed Portofino Beach Inn. They’ll be replaced with three, two-story, upscale-looking buildings with underground parking. The new structures will contain 45 condominiums (including four set aside for very low-income families), plus 14 commercial spaces — one for a restaurant, seven for retail shops and six for offices.
